

Pharaoh's Challenge

Your group would be divided into teams of a maximum of 10 per team. Each team has to take on Pharaoh's Challenge to find his hidden treasure of gold by taking part in various different team exercises, each requiring differing degrees of planning, communication and teamwork. Successful completion of the activities and exercises earns the teams' hieroglyphic panels of which there are 16 to obtain. The panels spell out a message to find Pharaoh's gold and the first team to decipher the hieroglyphics and find the gold are the winners.

The teams place their marker (a Scarab beetle) on one of the hieroglyphics on the central 4' high, "gold", pyramid. The hieroglyphic will lead them, with their Guide, to a particular exercise or activity. The actual exercises associated with the Pharaoh's Challenge will all have an Egyptian connection, for example The Pyramid, Rising Nile, Tomb Raider, Chariot Race and Slave Gang.

Once at each exercise or activity, there is no time constraint on the team - they may spend as much or as little time there as they wish - so they are their own time managers. However, they must remember that the more exercises they complete correctly, the more panels they will earn. Once they have completed their exercise they return to the pyramid and move their marker to another hieroglyphic.

It is possible to extend the event to a full day by incorporating additional activities, such as a cryptic clue trail or shooting disciplines, e.g. Longbow Archery, which are all linked to an overall team score. At least four additional activities would have to be included to make this a full day event and the venue would have to have suitable grounds in which to carry out the additional activities.

Recommended teams is 8, maximum team size is 10. Event Duration: 2 – 2.5 hours without additional activities

3 Team (max. 30 pax) Pharaoh Challenge: £1,400 + Vat. Each additional team: £295 + Vat for up to 8 teams.
