

Powerturn 411s (based on 2 vehicles)

An exciting, brand new and totally different driving discipline. The Powerturn 411 is a two-seater buggy powered by twin engines and steered by varying the throttle or brake on either of the engines. Capable of spinning 360° on its axis, the Powerturn is a real experience, especially to keep it on a straight line whilst going through a fun flagged course with slaloms and circle! **£695**
