

SPIFFY:

The Spiffy (or smart) event provides a range of fun logic and brain teaser tasks laid out within the indoor area or room. The event is fun and geared towards stimulating groups of individuals during or after a meeting or conference for one or more sessions or as a short evening entertainment.

The series of activities outlined below are focused on maximum 10 minute duration and the team or pair has to gain as much gold as they can (in the form of gold marbles) within the time allowed. The games detailed are only a small section of the range of indoor games we have available.

1. Water Divider:

Three containers hold 8, 5 and 3 units of water when filled to the mark shown. Water already fills the 8-unit container. Using only the equipment provided, divide the water accurately so that there is 4 units in each container!

2. Gold Rush

Several exercises involving “coins” are laid out on the floor and the individual has to complete them as fast as they can.

3. Who owns the Zebra?

There are 5 houses, each of a different colour and inhabited by men of different nationalities, with different pets, drinks and cars. There are a series of 14 situations e.g. The Norwegian lives in the house furthest to the left, milk is drunk in the middle house and the Russian drinks tea. The team has to solve the problem: Who owns the Zebra and who drinks water?

4. Golden Arrows;

The arrows are laid out in an equation which doesn't work - by moving only two arrows the individual has to complete the equation.

5. Aussie Pyramid

The pyramid comprising 10 plinths is upside down – by moving 3 plinths the team has to make it upright!

6. The Cross

The team is presented with a wooden cross and in the time allowed they have to separate the two pieces without breaking it! Lateral thinking a must!

7. Squares.

The team is presented with 4 very large squares and by moving a designated number of stakes they have to make 3 squares.

8. Giant Matchsticks

The matchsticks are in a set pattern and by moving 3 the team must make a set geometric shape!

9. Brain Teasers

The team is presented with a set of words which is a famous saying or phrase. A minimum of 8 puzzles from the 16 available has to be solved in the time allowed.

10. The Grid

A diagram outlines the grid that the team must construct, in the time allowed, from 15 pieces of plastic or wood and the team member's are responsible for their own pieces.

The team, couple or pair with the most gold at the end of the designated time wins Spiffy!

Costs start from **£750** + Vat.
